

WHAT HOMEOWNERS SHOULD KNOW ABOUT TAX REFORM

Here's what homeowners need to know about the Tax Cuts and Jobs Act that was signed into law December 2017.

MORTGAGE INTEREST DEDUCTION

- The limit on deductible mortgage debt was reduced from \$1 million to \$750,000 for new loans taken out after 12/14/17. Current loans of up to \$1 million are grandfathered and are not subject to the new \$750,000 cap.
- Homeowners may refinance mortgage debts existing on 12/14/17 up to \$1 million and still deduct the interest, so long as the new loan does not exceed the amount of the mortgage being refinanced.
- Interest paid on home equity loans is only deductible if the proceeds are used to substantially improve the residence.
- Interest remains deductible on second homes, but subject to the \$1 million / \$750,000 limits.

DEDUCTION FOR STATE AND LOCAL TAXES (SALT)

- If you itemize your tax return, you can claim up to \$10,000 total for state and local property taxes and income or sales taxes. This \$10,000 limit applies for both single and married filers.
- If you prepaid your 2018 state and local income taxes in 2017, you cannot deduct those taxes.

CAPITAL GAINS EXCLUSION

- Remains unchanged at \$250,000 for single filers and \$500,000 for joint returns if the house was lived in for two of the last five years.

HOUSING MARKET IMPACT

- California's median home price is projected to increase 3.2 percent in 2018. Overall, home sales in California are expected to grow in 2018.
- The supply of available homes for sale will be slightly impacted, as homeowners may delay trading up/down to their next home.
- Overall, the California housing market is expected to see a decline of 0.3 percent in active listings in 2018.
